The Grosse Pointe Yacht Club Board of Directors and Management take their mission statement seriously and endeavors to “continue to be a premier private yacht club, among the finest in North America, also providing high-quality family and social programs to its members.”

In 2017, the Club continues to celebrate its Centennial Anniversary and is making progress with various capital projects, all revolving around amenities for families of all ages to enjoy.

Not only will there be renovations and updates in the clubhouse, the Club continues to do work on Harbor renovations. Additionally, a Marine Recreation Center will be built on the southeast corner of the Harbor. The Center will host all water sports, including the sailing program, paddle boarding, kayaking, canoeing and wave runners. Plans are also in place for a new building which will include an observation area, classroom space, enhanced storage space and a casual gathering area. A skeet shooting station

will be incorporated for the fall and winter use for members.

Additionally, there are plans for a Family Recreation Center. The Tennis House will be renovated to become a year-round center and hub for many new activities that include a splash pad, playscape, fitness stations, junior basketball court and two bocce ball and shuffleboard courts. The Center will also be renovated with four new Hartrue tennis courts and four pickleball courts.

In addition to these exciting developments, Grosse Pointe Yacht Club will, of course, continue to provide a “home away from home.” Members and their guests will find exceptional service and state-of-the-art amenities. The clubhouse features a swimming pool, tennis, paddle tennis and a bowling facility, 268-well secured harbor, business seminar services, affiliate fitness and golf club partnerships, exceptional dining cuisine and magnificent views of Lake St. Clair.
